Office Cloud Services for Education

Email | Storage | Communication | Collaboration | Microsoft Office

Live@edu is transitioning to Office 365 for education delivering familiar Microsoft Office collaboration and productivity tools through the cloud so that everyone in your school can work together easily with anywhere access to email, web conferencing, documents, and calendars.

Sign up for Live@edu today and your school will be transitioned to Office 365 when it becomes fully available.

Live@edu is a free cloud service that provides institutions (students, faculty and staff) with communication and collaboration services along with online documents and storage.

Live@edu includes:

- **Email, Calendar & Contacts:** Hosted email with 25GB inbox per user, calendaring and instant messaging through Outlook Live. Protected by built-in antivirus and anti-spam filters. Rights management, dynamic distribution lists and enterprise-level transport rules.
- **Online Storage & Collaboration:** Ability to access, share and collaborate with 25GB of online storage space using Windows Live SkyDrive.
- **Online Documents:** Create, view, edit, and share Microsoft Word, Excel, PowerPoint, and OneNote files online with SkyDrive and Office Web Apps.

Qualified customers can enroll now in Office 365*

Office 365 for education will combine the familiar Office desktop suite with online versions of Microsoft's next-generation communications and collaboration services.

Free for Students
Exchange Online
Lync Online
SharePoint Online

Office 365 includes:**

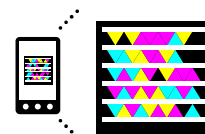

(Available now for qualified customers)

- **Email, Calendar & Contacts:** Hosted email with 25GB inbox, calendaring and contacts through Exchange Online 2010. Designed to provide the control you want and the security and reliability you need. Protected by built-in antivirus and anti-spam filters and unlimited, IT-level phone support 24 hours a day, seven days a week in your local language. **(Free for all students, faculty and staff)**
- **Virtual classes, Online Meetings, Video and Voice Chat:** Conduct online classes, record them and share with others for playback anytime, online or offline. Connect with the right person at the right time and in the right way with Lync Online 2010. Rich presence information so you know who's online and available. Transform any conversation to include high-resolution video-, application-, and desktop- sharing and be fully present without physically being there. Keep track of chat sessions with conversation history. Consistent experience across all of Office 365. **(Free for all students)**
- **Class & Group Sites:** Keep everyone informed and on track. Create class and group sites to share documents and information with SharePoint Online 2010. Designed to work with familiar Office applications, it's easy to save documents directly to SharePoint, and work together on projects in real-time because everyone has access to the documents and information they need from virtually anywhere. **(Free for all students)**
- **Online Documents:** View, edit, and share Microsoft Word, Excel, PowerPoint, and OneNote files online with SharePoint and Office Web Apps. **(Free for all students)**
