

Your gateway to sharing school information

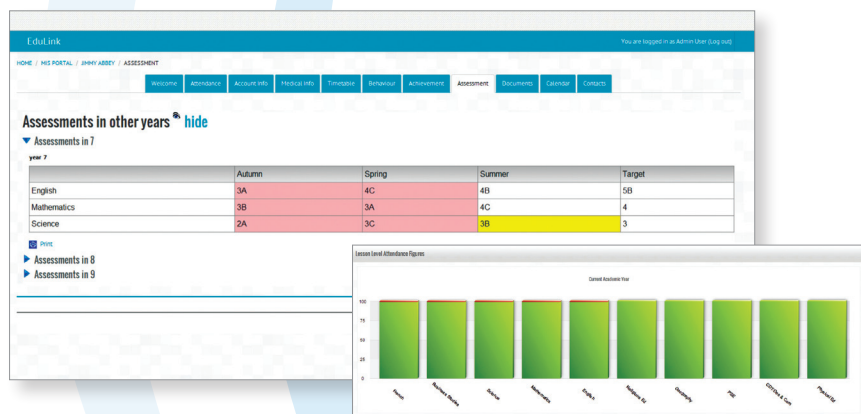

Student performance and pastoral data in your hands 24/7

Student Tracking and Reporting

EduLink Staff

EduLink gives teachers secure access to real time data from their school's MIS, either online or via an app. Teachers and the SMT can view records, graphical and tabular reports and even update the MIS directly at a group or individual level. Plus with the free app they can take electronic registration anywhere.

The screenshot shows the EduLink web interface displaying a 'Marksheet * AM English Year 8 Progress Tracker' for the date 8x/En3 13/14. The table lists student performance across various metrics including attendance, English test scores, and attainment levels.

Learner	Class	Gender	SEN Status	% Attendance	EW TA English Subject KS2	English Test Level KS2	English Attainment Level	2 Levels Progress Target	English KS2 Target Level	English Attainment Y2	English Progress 7 Su	Eng End Of Year Target	English Attainment Lev Au	Eng Prg
Bergman Brad	Bu/En3 13/14	M		41.8	W	8	W	4	3B	3C	+	3C	2B	+
Andrew Brian	Bu/En3 13/14	M		39.4	S	3	3C	5	3C	3A	+	4A	4C	+

Why choose EduLink Staff?

- Up to the minute mobile access to your school's MIS data 24/7, either online or via our app, allowing staff to work more flexibly
- Review, add and update information directly to your MIS with the Write Back feature, ideal for simplifying everyday classroom tasks such as taking attendance, checking timetables and reviewing student records
- Provides mobile facility to take attendance electronically during PE or when away on a school/ field trip
- Seamlessly and quickly add marks for student attainment to your MIS, either individually or for a whole group
- Graphical and tabular reporting tools to make student data more meaningful – helping teachers and SMT to make better informed decisions
- Improve school communication through effective sharing of data
- Make significant savings in administration time and printing costs
- Includes EduLink Communicator, giving your school a more efficient and targeted approach to staff, student and parental communication via SMS and email - only receive information that is relevant to them
- Free app available on the App Store and Google Play for tablet and smartphone access

Whole School Communication

EduLink Home

EduLink Home allows schools to easily provide parents and carers with immediate access to their child's MIS data, either online or via an app. The outcome is an improved home-school link as parental engagement and participation is developed through access to real-time data on their child's performance.

Students can view their own data, helping them to keep in touch with their own performance and empower them to take charge of their own learning.

Why choose EduLink Home?

- Allows parents and carers to view up-to-date data on their child's timetable, school calendar, attendance, achievements, assessment, behaviour, cashless catering and documents 24/7
- Improve school communication through effective sharing of data
- Make significant savings in administration time and printing costs on paper based reports
- Free app available on the App Store and Google Play for tablet and smartphone access

EduLink Communicator

EduLink Communicator provides schools with a comprehensive solution for student, staff and parental communication, using the data held within the school's MIS system.

It provides an alternative to paper-based communication, as well as giving staff the control to limit the large number of unnecessary emails/ SMS messages sent out.

Teachers can send out student based individual and targeted bulk text

messages (SMS) and emails to relevant students, parents and staff, ideal for both routine communication, as well as rapid urgent notifications. Messages can be sent by email, SMS or a combination of the two.

Why choose EduLink Communicator?

- Rapid access to up-to-date contact information within your school's MIS
- Provides easy-to-use controls to limit student-based email and SMS communication to relevant staff, students and parents.
- Improved parent-school dialogue, encouraging participation and engagement
- Reduce the significant time and costs associated with paper-based communications
- Make rapid contact in the event of an emergency
- Cost effective solution for routine communication such as school newsletters

Simplifying Moodle Admin

EduLink Moodle

EduLink for Moodle is a solution for Moodle users who would like to integrate Moodle with their School's MIS system. Plus if you are looking to implement a new Moodle learning platform for your school, EduLink for Moodle will save time automatically provisioning courses.

2 options available

EduLink for Moodle

This version automatically provisions and synchronises student accounts, staff accounts, groups, groupings and cohorts within your school's MIS and Active Directory. This simplifies Moodle administration whilst allowing Active Directory (LDAP) authentication and Single Sign On.

EduLink for Moodle+

As well as the features for EduLink Moodle, the Plus version includes all the features of EduLink Staff, EduLink Home and EduLink Communicator but fully integrated within the Moodle interface, as well as the separate app for mobile devices. This allows users to access both curriculum and management information within a single integrated system, ideal for encouraging use.
