

RM SafetyNet is our low cost cloud-hosted filtering service that requires no on site equipment or software for the ICT team to manage, install, power, protect or update.

It means that any device, at any time, can change the filter rules or accessible websites.

A teacher needs access to YouTube for the next lesson – not a problem. With RM SafetyNet this change can be made in minutes!

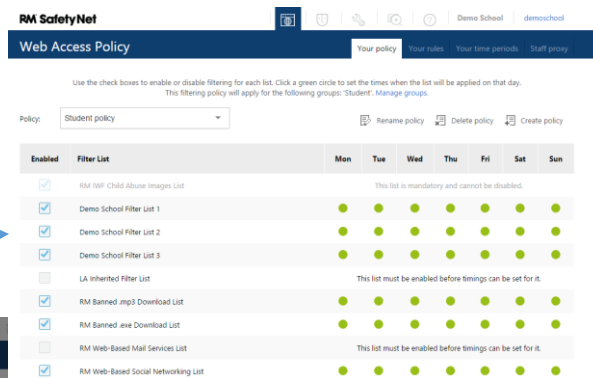

Key FEATURES and tools

- Cloud hosted web filtering – no equipment for your school to manage, install or update
- Illegal sites on the Internet Watch Foundation (IWF) black list blocked
- Illegal extremist content blocked
- Access to pre-compiled filter lists
- Ability to create custom lists
- Sync with your active directory to apply filter rules to individual users and groups
- SSL filtering inspection for Google services
- Enforced SafeSearch mode in Google and Bing
- Prevent pupils searching for specific terms or words
- Bandwidth graphs to view trends and monitor usage across school year
- Content filtering assesses any unknown web page to establish it's suitability
- Create time based rules:

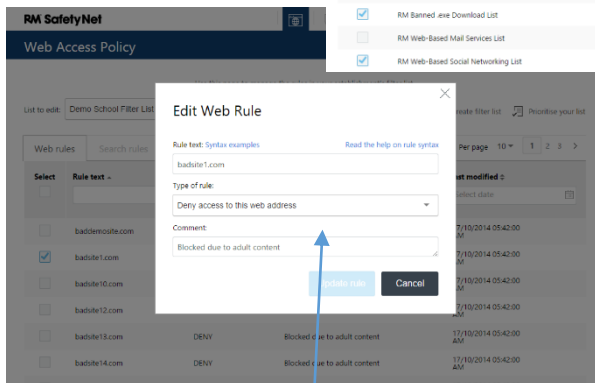

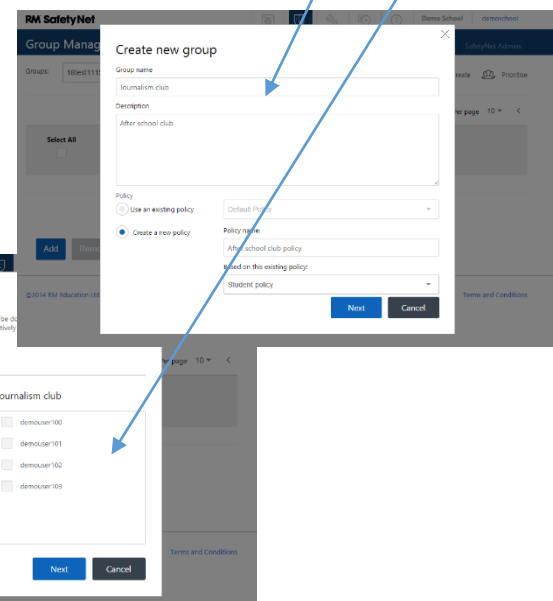

With the easy to use interface you can quickly:

Create Policies and amend the time certain filter lists are active

Create new groups and add users to those groups

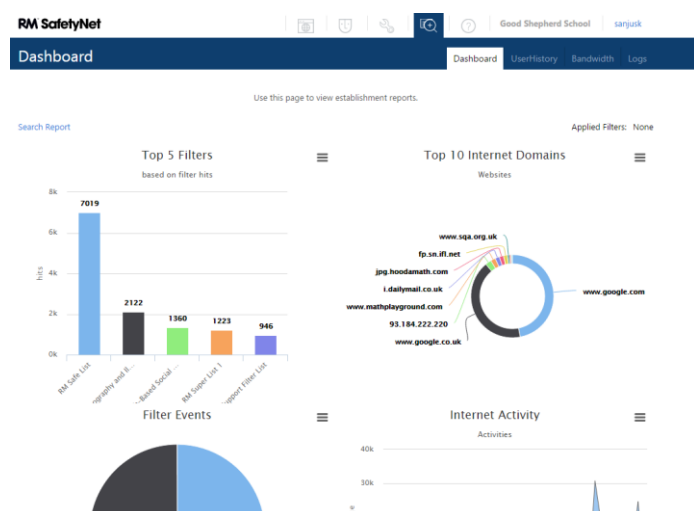

Edit your web rules

Satisfying the latest DfE guidelines

RM SafetyNet satisfies all the filtering requirements, as set out in the latest 'Keeping Children Safe in Education' DfE Guidance Document (Sept 2016), the Prevent Duty (July 2015) and Ofsted's Common Inspection Framework (August 2015). It will also enable you to monitor your internet usage, and provide a range of activity reports that enable you to assess the behaviour of staff and students when online and the impact of any planned online safety initiatives.

Specifically, and to list the minimum requirements now expected of schools (as set out in 'Keeping Children Safe'), SafetyNet will -

- ✓ Block Access to illegal content (i.e. the Internet Watch Foundation and 'Prevent' filter lists)
- ✓ Prevent access to inappropriate content (i.e. anything categorised as Discrimination, Drugs/Substance abuse, Extremism, Malware/Hacking, Pornography, Piracy and copyright theft, Self Harm, Violence)
- ✓ Provide the following features...
 - Differentiated filtering; appropriate for age and role
 - Local control; schools have the ability to permit or deny access to specific content
 - Rationale of how they classify and categorise content, and prevent over blocking
 - Individual users to be identified; user based rules can be applied
 - Application filtering; filtering isn't limited to filtering web traffic
 - Mustn't rely on software installed on local devices
 - Enables reporting; to include browsing history of individual users

The reporting interface shows a table of filtered content with the following columns: URL, Filter status, Filter list, IP, User, and Date. The table displays 15 rows of data, including URLs like 'outlook.office.com' and 'clients4.google.com', filter statuses like 'Allowed' and 'Denied', and filter lists like 'Extremist Content' and 'School List'.

URL	Filter status	Filter list	IP	User	Date
outlook.office.com	Allowed	All	255.255.255.255	User Name 150	29/06/2016 12:58:55 AM
outlook.office.com	Allowed	RM IWF Child Abuse Images List	10.0.0.25	Not Available	29/06/2016 12:58:52 AM
clients4.google.com	Allowed	Extremist Content	10.24.343.2	Not Available	29/06/2016 12:58:48 AM
outlook.office365.com	Allowed	School List	192.168.0.43	User Name 212	29/06/2016 12:58:46 AM
outlook.office.com	Allowed	RM Pornography and Illegal or Age-Restricted Activity List	10.0.0.24	Not Available	29/06/2016 12:58:38 AM
outlook.office.com	Denied	Extremist Content	10.0.0.54	User Name 199	29/06/2016 12:58:37 AM
outlook.office365.com	Allowed	None	10.0.0.223	Not Available	29/06/2016 12:58:29 AM
outlook.office.com	Denied	RM Pornography and Illegal ...	192.168.0.58	User Name 496	29/06/2016 12:58:29 AM
outlook.office.com	Denied	RM Intolerance List	10.0.0.53	Not Available	29/06/2016 12:58:20 AM
outlook.office.com	Allowed	School List	10.0.2.162	User Name 150	29/06/2016 12:58:13 AM

The 'Recent searches' table displays 2274 recent searches. The columns are Search term, Search engine, User, and Time. The search terms include 'make', 'mak', 'ma', 'm', and 'e', all from 'www.google.co.uk'.

Search term	Search engine	User	Time
make	www.google.co.uk	User Name 67	Fri, 08 Jan 2016 11:03:14
mak	www.google.co.uk	User Name 67	Fri, 08 Jan 2016 11:03:14
ma	www.google.co.uk	User Name 67	Fri, 08 Jan 2016 11:03:13
m	www.google.co.uk	User Name 67	Fri, 08 Jan 2016 11:03:13
e	www.google.co.uk	User Name 67	Fri, 08 Jan 2016 11:03:13

The 'Recently blocked' table displays 2360 recently blocked events. The columns are Url, Category, User, and Time. The URLs include 'www.google.co.uk/search?q=cartoon+characters+with+3+hands&sa...', 'www.google.co.uk/ajax/p/ingdisc?imgdri=pk2oAlMyosmmfM3A8q...', and 'www.google.co.uk/img/hover?iact=hmb&uact=9&dur=1501&q=creative...'. The categories are 'RM Proxy Bypass and Secure Search List', 'RM Pornography and Illegal or Age-Restricted Activity List', and 'RM Web-Based Social Networking'.

Url	Category	User	Time
www.google.co.uk/search?q=cartoon+characters+with+3+hands&sa...	RM Proxy Bypass and Secure Search List	User Name 73	Fri, 08 Jan 2016 11:03:11
www.google.co.uk/search?q=cartoon+characters+with+3+hands&sa...	RM Proxy Bypass and Secure Search List	User Name 73	Fri, 08 Jan 2016 11:03:11
www.google.co.uk/ajax/p/ingdisc?imgdri=pk2oAlMyosmmfM3A8q...	RM Proxy Bypass and Secure Search List	User Name 73	Fri, 08 Jan 2016 11:03:11
www.google.co.uk/img/hover?iact=hmb&uact=9&dur=1501&q=creative...	RM Pornography and Illegal or Age-Restricted Activity List	User Name 70	Fri, 08 Jan 2016 11:03:04
plus.google.com	RM Web-Based Social Networking	User Name 75	Fri, 08 Jan 2016 11:03:02

SafetyNet links with the schools active directory allowing you to be able to filter on groups of students, specific individuals or staff. This solution is in line with the appropriate filtering for Keeping Children Safe in Education and is going to be continually developed to keep increasing the functionality.

Some of the features coming soon....

RM Education can also provide:

- ✓ A [free online self assessment tool](#), that enables schools to assess their current strengths and opportunities for improvement regards digital safeguarding
- ✓ A range of Online Safety consultancy, workshop and CPD services, to help inform, educate and provide direction for your school, its staff, learners and other stakeholders (e.g. Parents, Carers, Governors)
- ✓ A choice of monitoring solutions that, again, ensure the school complies with the [latest DfE guidance](#)
- ✓ Other tools and resources to, for example, help schools introduce and embed key online safety concepts across the curriculum, keep up to date with the latest legislation and good practice, and ensure safeguarding incidents are reported, logged and actioned effectively
