

RM™ Mobile One 310

bfree

with RM Mobile Innovation

Key features

- Drop tested
- Run for up to 6 hours
- Reinforced screen
- Spill and splash proof keyboard
- WildCharge ready

RM Mobile One 310 The super hero

The RM Mobile One takes the Notebook PC and completely re-engineers it for pure educational use. Recognising the classroom limitations and vulnerabilities of conventional notebooks, the RM Mobile One is the first notebook to be designed for one of the toughest environments - schools and their pupils. It's a notebook for teachers and learners with the big idea being robustness. With its spill and splash proof keyboard, rubber bumpers, and reinforced screen the RM Mobile One is one resilient notebook.

Education Benefits

- Robustness – the RM Mobile One has a reinforced screen and an easily replaceable spill/splash proof keyboard to withstand the everyday classroom environment.
- Hard working battery – the RM Mobile ONE 310 will run up to 6 hours.
- WildCharge - Simplify your school life with hassle-free, wire-free charging.

What's new?

The new RM Mobile One offers you the opportunity to integrate the first universal wire-free charging solution – WildCharge. This enables you to simply place the RM Mobile One anywhere on the WildCharge pad to receive immediate full power on contact! Say goodbye to that spaghetti junction on your table or trolley solution.

You'll benefit from the faster, easier and more reliable new features of the Windows 7 operating system. Greater control, improved security and more productivity are just some of the benefits. It's the perfect complement to the quality of RM Hardware.
