

BETT 2010 - Future Learning Spaces Seminar Programme

Wednesday 13 January

11.00 	Place Group ICT - IT'S NOT ALL ABOUT THE TOYS – Presenter: Neil Hayes <i>This presentation will:</i> • Discuss how the pursuit of new technologies, gadgets and software can actually limit the long term value of the technology. • Explore why a more cautious approach to the latest whizzy gadgets can be healthy • Highlight that focussing on better understanding the 'problem' you are trying to solve through technology may lead you to some surprising conclusions and help you make choices that lead to more sustainable and affordable solutions.
11.30 	Sony - Media and Learning – EMBRACING THE YOU TUBE GENERATION Presenter: Hamish Kennedy
12.00 	Logica - Presenters: Patrick Mainprize and Patrick Doherty <i>These speakers have used their combined 50 years teaching experience and knowledge to develop a Change Management Framework specific to the needs of the BSF programme.</i> <i>An insight into the Change Management Framework which includes the following key elements: Change Impact Evaluation Tool; 'Art of the possible' workshops; Training Needs Analysis, Benefits Realisation Analysis, Impact Framework (Teaching and Learning), Eye for Learning, Learning Space of the Future, Operational Training, Administrative Training and Educational Transformation Consultation.</i>
12.30 	Atkins: Simon Bates Director <i>A view on how policy does deliver at the front line through technology strategy and implementation</i>
1.00 	FURNITURE BRIEFING FOR BSF: ACTIVITIES AND BEHAVIOURS <i>Partnerships for Schools recognises the importance of furniture in delivering essential elements necessary for the successful delivery of learning outcomes.</i> <i>Marc Davies asks: When will you consider furniture for BSF or Capital funded schemes? What are you trying to achieve with furniture and how will you brief bidders on your requirements?</i> <i>Marc Davies is Senior Designer for Counties</i>

	<i>Furniture Group, a Local Authority Company with eighty LA members. The Group undertakes research, designs products and makes them available to member Authorities under framework agreements from OJEU selected suppliers.</i>
1.30 	PRIMARY CAPITAL PROGRAMME CASE STUDY: JOHN PERRY PRIMARY SCHOOL FROM VISION TO REALITY Speaker: Von Smith, Headteacher
2.00 	Ramesys: FUTURE LEARNING, WHAT SHOULD IT MEAN? HOW FAR HAVE WE COME? <i>In this session we will explore to what extent BSF can foster innovation and ensure the ICT solutions can be flexible enough to keep up with the extraordinary pace of development in technology, so that its role in future learning can be ensured.</i>
2.30 	Lookred Solutions: 'SMART DATA, SMART LEARNING' <i>We live in a world where it is possible to wrap the information tools and resources around the needs and characteristics of an individual. At the moment education lags far behind the way the full potential of technology is being exploited by other sectors and walks of life. Crucially the 'school experience' is increasingly being challenged by the preferences and experiences young people have in the rest of their lives. In this seminar Chris Poole the founder of Lookred solutions, will show the Proof of Concept his company has developed with a very progressive Academy and Local Authority. Chris is working with the Council of Chief State School in the US and the session will close with an invitation to join a Global Innovation Forum being established for those who have an appetite for step change.</i>
3.00 	THE BIG DEBATE – 21ST CENTURY LEARNING ALLIANCE. Sir Tim Brighouse and Sir Mike Tomlinson

Thursday 14 January

11.00 	Excellence in BSF Award Winners 2009 – THE CIVICA LEARNING SUITE Presenter: Darren Morgan. <i>Civica is debuting its next generation of its learning platform at BETT, and this seminar will describe the trends in BSF and changes to the output specification which are bringing about this change.</i>
11.30 	CHANGE MANAGEMENT – MICHAEL BUCHANAN PARTNERSHIPS FOR SCHOOLS <i>This presentation will explore some of the key components of a robust change management strategy for BSF and some of the opportunities and challenges. With reference to the guidance, PfS' Readiness To Deliver, Strategies for Change and Outline Business Case, and for subsequent delivery will be set out. Having in place a systematic plan for the leadership and management of change is a critical success factor in implementing a BSF education strategy.</i>
12.00 	RM FUTURE LEARNING SPACES SPEAKER MYF POWELL <i>RM shares its experience and future thinking on Future Learning Spaces</i>
12.30 	Lookred Solutions: 'SMART DATA, SMART LEARNING' <i>We live in a world where it is possible to wrap the information tools and resources around the needs and characteristics of an individual. At the moment education lags far behind the way the full potential of technology is being exploited by other sectors and walks of life. Crucially the 'school experience' is increasingly being challenged by the preferences and experiences young people have in the rest of their lives. In this seminar Chris Poole the founder of Lookred solutions, will show the Proof of Concept his company has developed with a very progressive Academy and Local Authority. Chris is working with the Council of Chief State School in the US and the session will close with an invitation to join a Global Innovation Forum being established for those who have an appetite for step change.</i>
1.00 	EDUCATION LEEDS: HOW TO LIVE WITH YOUR BSF PARTNERS <i>Successful BSF programmes rely on successful, maturing relationships within your BSF family. Come and learn more about how relationships are managed in Leeds BSF's award-winning partnerships.</i>
1.30	OMI AND KINGWOOD CLC – ISPACE <i>The iSpace is an agile and multi functional learning space that is accessible to learners of all ages,</i>

	abilities and needs. The iSpace has been created through a close collaboration between Kingwood CLC and OMI Interactive. The room incorporates interactive light beams, interactive floor and wall projection systems, as well as the Soundbeam technology, and offers enormous potential for exploration, collaboration, experimentation and the development of the creative curriculum. This seminar will explore how involving pupils in designing interactive content also creates new opportunities for learning in art, music, dance and multimedia and has particular relevance as part of the 14-19 IT diploma.
2.00 	VIRTUAL SCHOOL <i>Andy Fisher and Mark Mullis from Middlesbrough City Learning Centre created models of BSG and PCP schools in cyberspace before the schools physical building came into being. They will spend this session identifying the challenges faced by a school undergoing the BSF process, and consider the reasoning behind using 3D virtual worlds to aid the process and the practicalities of doing so. The session will also cover modelling the school building accurately from architects plans in a 3D virtual online environment, activities that allow all stakeholders to engage together in a fully interactive visualisation process and the process of supporting staff and pupils in the transition into their new school. They will also use practical examples from the CLC and local schools to explore the use of this highly creative environment to engage pupils in stimulating learning.</i>
2.30 	HOW GREEN IT CAN SUPPORT INNOVATION IN BSF AND SAVE YOU MONEY Alastair McGowen Principal Consultant for Education <i>The seminar discusses the IT technologies and services such as cloud computing and low power consumption devices, that can reduce the environmental impact of your new BSF ICT solution. The seminar will also discuss how these technologies and services can support innovation and creativity as well as reducing a school's overall running costs.</i>
3.00	BSF MANAGED SERVICES – INNOVATION THROUGH PARTNERSHIP Tom Cooper BSF ICT Lead <i>How Lewisham Schools and their ICT partner are developing robust innovative ICT solutions which are transforming teaching and learning. Tom will outline how they have procured and ICT partner not a provider.</i>

3.30- 4.30  The 21st Century Learning Alliance	THE BIG DEBATE – 21ST CENTURY LEARNING ALLIANCE. Sir Tim Brighouse and Sir Mike Tomlinson
--	--

Friday 15 January

11.00 	Atkins: DESKTOP VIRTUALISATION IN EDUCATION: ONE YEAR ON, FROM BLEEDING EDGE TO LEADING EDGE <i>Desktop Virtualisation has the potential to revolutionise the way computing environments and applications are provided in education. Many of the traditional constraints and frustrations associated with educational computing simply do not hold true in a virtualised environment. However, as with all new technologies, early implementations have not been without their challenges. Atkins has been leading the way in introducing this ground breaking technology to the schools sector. This presentation will explore the challenges, successes and next steps for desktop virtualisation in education.</i>
11.30 	KI - THE ROLE OF FURNITURE IN SCHOOLS, SUPPORTED BY RECENT CASE STUDIES OF SCHOOLS, ACADEMIES AND UNIVERSITIES Jonathan M. Hindle – Group Managing Director, Europe, Middle East and East Asia.
12.00 	Ramesys: FUTURE LEARNING, WHAT SHOULD IT MEAN? HOW FAR HAVE WE COME? <i>In this session we will explore to what extent BSF can foster innovation and ensure the ICT solutions can be flexible enough to keep up with the extraordinary pace of development in technology, so that its role in future learning can be ensured.</i>
12.30 	Flexitech: DESIGN YOUR SCHOOL – DESIGN, COLLABORATE, INNOVATE – IMAGINE A BETTER SCHOOL Speakers: Rachel Desouza, Principal, Barnfield West Academy and Lee Widra, ICT Consultant <i>Rachel and Lee will describe how the use of Intuitive and exciting 3D software has enabled real time collaboration, integration and design of ICT and furniture into the Barnfield West Academy.</i>
1.00	ISIS - LINKING LEARNING SETTINGS TO PEDAGOGY

	<i>How an holistic approach to the design and specification of furniture, ICT and services infrastructure can increase performance and reduce costs.</i> <i>Including a case study from Uxbridge High School</i>
1.30 	ULTRANET – HOW SYSTEMATIC EDUCATIONAL TRANSFORMATION REFORM CAN BE ACHIEVED WITH A STRATEGY AND ALIGNED ENABLING ENTERPRISE SOFTWARE Darrell Fraser, Minister for Education, Victoria, Australia
2.00 The Transformation Trust	THE TRANSFORMATION TRUST Speaker: Amy Leonard, Interim Chief Executive <i>This session will introduce delegates to the work of the Transformation Trust. The Transformation Trust is a new education charity that funds extra-curricular activities in new BSF schools, making the most of the 21st century learning environment and facilities that BSF provides. The Transformation Trust is already supporting projects in 90 schools across the country. Projects supported by the Trust are all designed to inspire and enthuse young people so that they go on to achieve their full potential, no matter what their background.</i>
2.30 	Lookred Solutions: 'SMART DATA, SMART LEARNING' <i>We live in a world where it is possible to wrap the information tools and resources around the needs and characteristics of an individual. At the moment education lags far behind the way the full potential of technology is being exploited by other sectors and walks of life. Crucially the 'school experience' is increasingly being challenged by the preferences and experiences young people have in the rest of their lives. In this seminar Chris Poole the founder of Lookred solutions, will show the Proof of Concept his company has developed with a very progressive Academy and Local Authority. Chris is working with the Council of Chief State School in the US and the session will close with an invitation to join a Global Innovation Forum being established for those who have an appetite for step change.</i>
3.00	I DREAM OF LEARNING (IDOL) <i>IDOL provides all students in Hounslow schools with the opportunity to participate in an activity which encourages groups of learners to design and then showcase their thinking on how they would like to learn in the future and in what kind of learning environment this may happen. IDOL gives young people the opportunity to transform their creative and innovative ideas into a physical reality. Pupils</i>

	from the Lampton School will be presenting how they moved their dream of learning from vision to reality.
3.30 	Excellence in BSF Award Winners 2009 – THE CIVICA LEARNING SUITE Presenter: Darren Morgan. <i>Civica is debuting its next generation of its learning platform at BETT, and this seminar will describe the trends in BSF and changes to the output specification which are bringing about this change.</i>

Saturday 16 January

11.00 	Flexitech: DESIGN YOUR SCHOOL – DESIGN, COLLABORATE, INNOVATE – IMAGINE A BETTER SCHOOL Speaker: David Triggs CEO (Academies Enterprise Trust) <i>David Triggs will describe how the use of Intuitive and exciting 3D software has contributed to stakeholder engagement and enabled real time collaboration, integration and design of ICT and furniture.</i>
11.30 	Sony - Media and Learning – EMBRACING THE YOU TUBE GENERATION Presenter: Hamish Kennedy
12.00 	Lookred Solutions: 'SMART DATA, SMART LEARNING' <i>We live in a world where it is possible to wrap the information tools and resources around the needs and characteristics of an individual. At the moment education lags far behind the way the full potential of technology is being exploited by other sectors and walks of life. Crucially the 'school experience' is increasingly being challenged by the preferences and experiences young people have in the rest of their lives. In this seminar Chris Poole the founder of Lookred solutions, will show the Proof of Concept his company has developed with a very progressive Academy and Local Authority. Chris is</i>

	<i>working with the Council of Chief State School in the US and the session will close with an invitation to join a Global Innovation Forum being established for those who have an appetite for step change.</i>
12.30 	HOW GREEN IT CAN SUPPORT INNOVATION IN BSF AND SAVE YOU MONEY Alastair McGowen Principal Consultant for Education <i>The seminar discusses the IT technologies and services such as cloud computing and low power consumption devices, that can reduce the environmental impact of your new BSF ICT solution. The seminar will also discuss how these technologies and services can support innovation and creativity as well as reducing a school's overall running costs.</i>
1.00 	Atkins: DESKTOP VIRTUALISATION IN EDUCATION: ONE YEAR ON, FROM BLEEDING EDGE TO LEADING EDGE <i>Desktop Virtualisation has the potential to revolutionise the way computing environments and applications are provided in education. Many of the traditional constraints and frustrations associated with educational computing simply do not hold true in a virtualised environment. However, as with all new technologies, early implementations have not been without their challenges. Atkins has been leading the way in introducing this ground breaking technology to the schools sector. This presentation will explore the challenges, successes and next steps for desktop virtualisation in education.</i>
1.30 	Ramesys <i>ICT providers will present a case study on their approach to transferring staff, the aim being to develop successful partnerships which support people to support learners.</i>
2.00 	Place Group ICT - IT'S NOT ALL ABOUT THE TOYS – Presenter: Neil Hayes <i>This presentation will:</i> <i>Discuss how the pursuit of new technologies, gadgets and software can actually limit the long term value of the technology.</i> <i>Explore why a more cautious approach to the latest whizzy gadgets can be healthy</i> <i>Highlight that focussing on better understanding the 'problem' you are trying to solve through technology may lead you to some surprising conclusions and help you make choices that lead to more sustainable and affordable solutions</i>
