

TrellisMATHS

A comprehensive selection of Microsoft Windows™ software packages dealing with many aspects of mathematics found in the school classroom: Algebra, Data Handling, Measures, Number, Shape, Space and Thinking Skills.

Eight separate packages, with over 35 individual programs:

- **Algebra** (Algebraic Magic, Equation Buster, Equation Resource, Mapping Match and Predict)
- **Angle Estimation** (Angle 360° and Snooker)
- **Co-ordinates** (3 in a Line, Elephant, Lines, Locate and Rhino)
- **Discovering Number** (Box, Guess, Lines and Magnify)
- **Investigations** (Inscribe, Points, Spirals and Trellis)
- **Probability** (Hidden Contents, Loaded Dice, Pinball, Probability Match and Routes)
- **Properties of Number** (Numbers, Multiples, Factors, Define, Identify and Factor Challenge)
- **Ratio** (Money Share, Paint Mix, Ratio Buster and Ratio Match)

All eight packages are being offered for a limited period for a special introductory price:

£65 for schools (site licence)
£35 for parents (home licence)

If you would like to evaluate these packages then please go to:

<http://www.trellis-est.co.uk/TrellisMATHS/TrellisMATHS.htm>

or contact **Trellis EST** at the address below.

If you are a school that has already purchased the software, then why not inform your parents that they can purchase all the packages from **Trellis EST** for a total cost of £35 (home licence – any number of computes in the home).
